9/7/65

Dear Dan, Two of the chapters, the one entitled and "The Dubious Kennedy Inquest", were written earlier and with something else in mind. The others are in approximate order, with a few more to be inserted. The later chapters are shaky but not quite unfixable. I have a terrible load to do. I haven't even this yet. I have all the documents quoted and plan to use facsimiles. I also have the pictures referred to. If I have any time to make suggestions it will be helpful. Should you finish it before I come to town next week, the name on the envelope is that of my dentist who also wants to read it. I have added his phone. Thanks.
